User Testing — Informed Consent Form

Participant Details

Full name: Georgiev Hristiyan

Student number: 241236

Purpose of This Study

You are being invited to take part in user testing for SignSee, a real-time Dutch Sign Language (NGT) fingerspelling recognition application developed as part of a student research project at Breda University of Applied Sciences. The purpose of this session is to evaluate the usability and performance of the application interface.

What Will Happen During This Session

During this session:

- You will be asked to interact with the SignSee web interface.
- Your interactions with the interface (e.g. gestures captured via webcam for recognition, navigation actions, and responses to tasks) may be recorded for the purposes of quality assessment and improvement of the application.
- You may be asked to complete specific tasks or provide verbal feedback.

Data & Privacy

- Any data collected during this session is used solely for internal quality assessment of the SignSee application.
- No personal data will be shared with or transferred to any third parties.
- Data will be handled in accordance with applicable data protection regulations.
- Participation is voluntary. You may withdraw at any time without consequence.

Declaration of Consent

I have read and understood the information above. I agree to participate in this user testing session and consent to my interactions with the SignSee interface being recorded for quality assessment purposes. I understand that no personal data will be shared with third parties and that I may withdraw my participation at any time.

Signature

A handwritten signature in black ink, consisting of a stylized 'J' followed by a series of loops and a long horizontal stroke ending in a small arrowhead.
